

ALLTAMI - SETTLEMENT SERVICE AUDIT

Settlement Commentary

Alltami is a very small elongated village whose main built focus is the A494/Alltami Road crossroads and the Tavern public house. The village has very few facilities in the form of a pub and chapel, but it is conveniently located to the north of Buckley and to the west of the A55 which both provide employment opportunities and access to other services.

Broadband Provision

According to the latest OFCOM data (2013) Alltami post codes (where data is available) have a median average broadband range of 2.8 – 3.7 mega bytes per second. Accordingly it is to be expected that broadband provision in Alltami is poor and is constrained. This will have a negative effect on businesses in their day to day operation and on local residents seeking to access online services such as banking, post office services or online shopping.

Other Comments

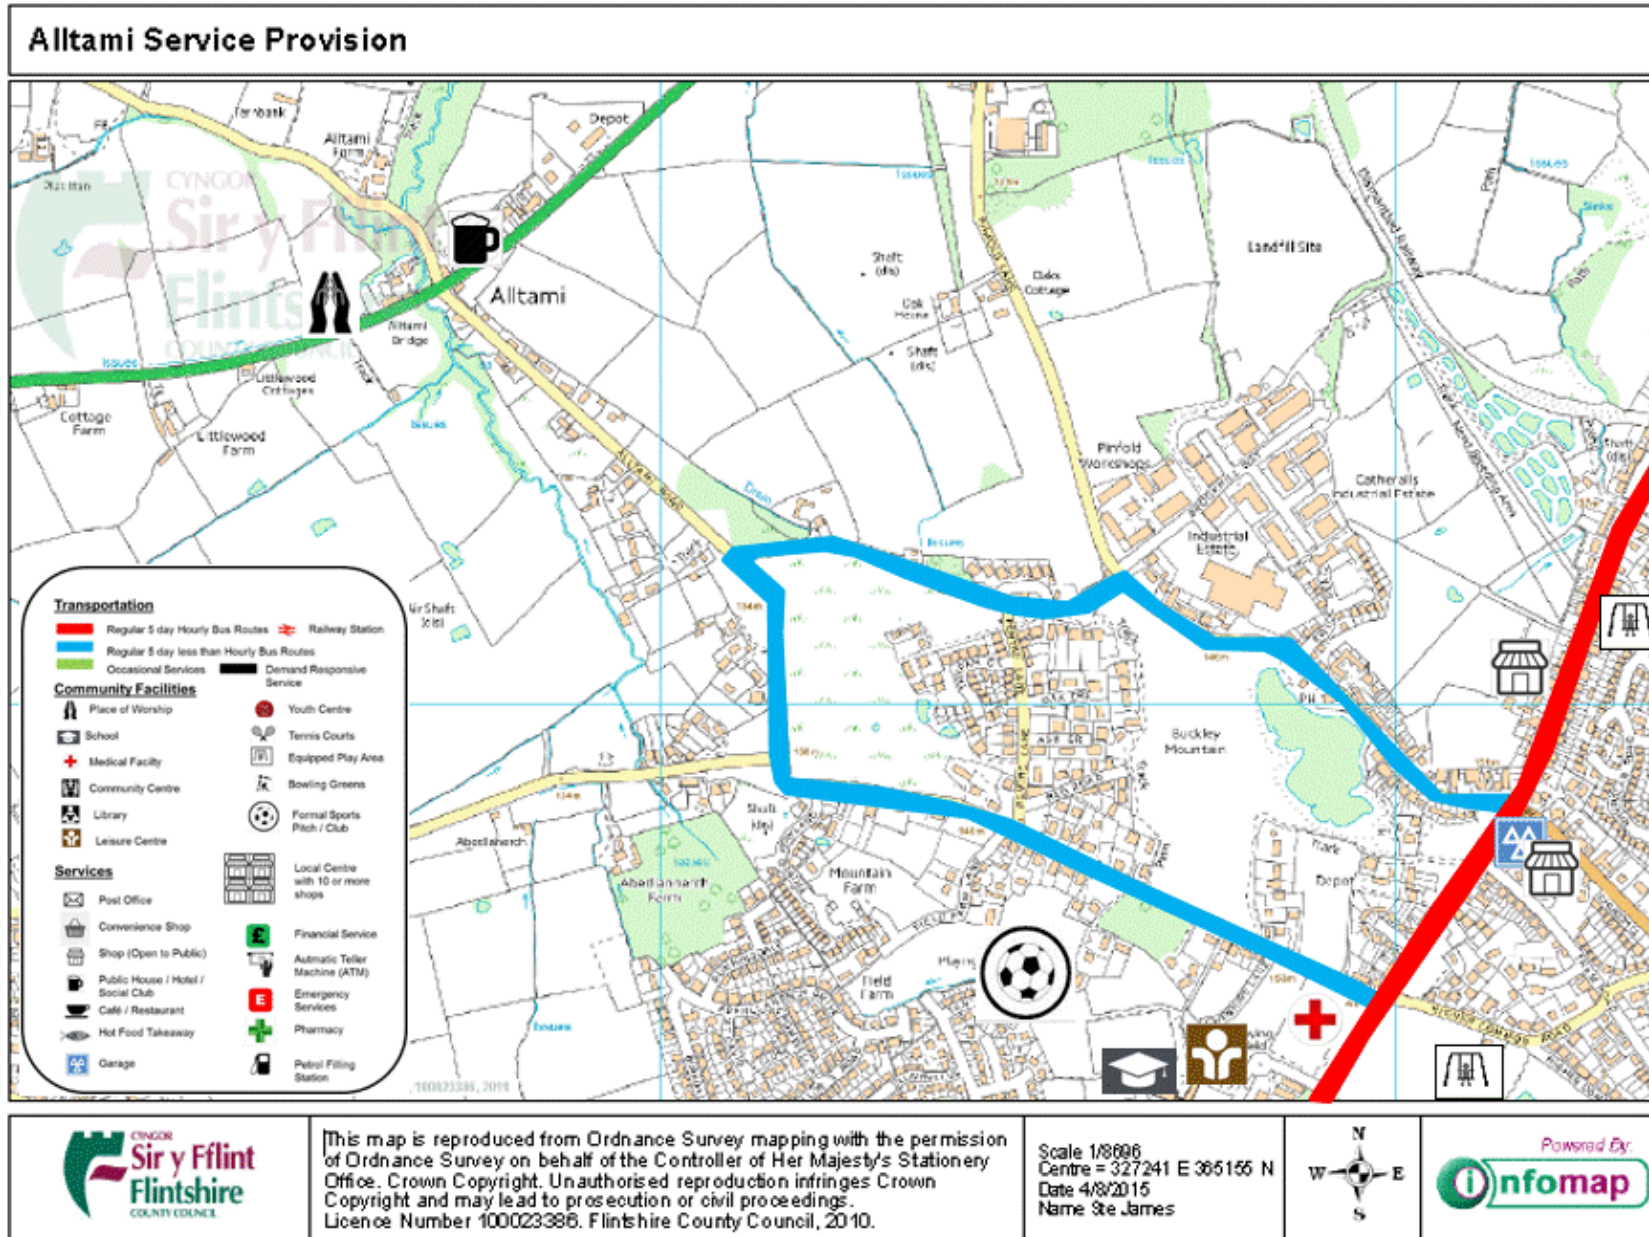

Buckley is very close to Alltami.

Previous Surveys of Service Provision

In 2000 and 2006 a survey was undertaken of Alltami, comparing the findings of those surveys with 2015 it is clear that services have not changed over the last 15 years.

Mapping Service Provision

Alltami has very few services and facilities but benefits from being close to Buckley and from being 1 kilometre from the New Brighton petrol filling station with shop and ATM. As the illustrative map of service provision suggests service provision in Alltami is very limited but the close proximity of Buckley particularly the medical centre, Elfed High School and the Leisure Centre are beneficial to the village.
